Date of Interview: 23 September 2009	Time:	
Type of Interview:  ☐ Telephonic ☐ Video Conference ☐ Personal (Copy given to: ☐ Applicant  Exhibit Shown or Demonstrated: ☐ Yes If Yes, provide a brief description:  ☐ Applicant's representative)		
Part I.		
Rejection(s) discussed:		
Claims discussed: 14,16		
14,10		
Prior art documents discussed:		
Part II. SUBSTANCE OF INTERVIEW DESCRIBING THE GENERAL NATURE OF WHAT WAS DISCUSSED:		
See Continuation Sheet		
Part III.		
☑ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability. ☑ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.		
(A	pplicant/Applicant's Representat	ive Signature – if appropriate)

Application No. 10/600,749

Continuation of Substance of Interview including description of the general nature of what was discussed: Re: claim 14, 1) "the beacon information receiving range" in line 19 should be "the predetermined beacon immation receiving range"; 2) if "a predetermined time in the predetermined beacon information receiving range", then the term "range" is actually a time period or interval; and 3) whether "range" is time period or interval, "beacon information receiving range" in lines 5-8 does not make sense. Re: claim 16, the amendment mostly repeats the interference information means limitation and adds only "a management time slot" that is non-descriptive. Specification, p.23, discloses "the management time slot M temporarily provide a buffer superframe 523 so as to establish a neighbor piconet relationship". See Also a management time slot and superfarems in Fig. 5.
